MOTIVATIONS & STRATEGY

The increasing interest of the Institute of Agronomy (ISA/ULisboa) in sustainability issues, complemented by the importance of combating poverty, hunger and disease led to the creation of **CENTROP - Center for Tropical Studies and Development** in November 25, 2004.

Recognized since July 1, 2009, as an **NGO** by the Ministry of Foreign Affairs, CENTROP aim is to support the sustainable development in **tropical regions**, which is pursued along 3 action lines:

- To foster partnerships in **scientific research** regarding agriculture and rural development;
- To provide **education and training** for technical, economic and social development;
- To promote **knowledge transfer** and technical consultancy

CENTROP action is worked out through a multidisciplinary team of ISA professors

FOCUS AREAS

Agriculture and Forest,
Water Management and
Sanitation,
Agro-ecosystems and
Biodiversity

Territorial Planning and
Development,
Economy and Business
Management, Sociology,
Information Systems

TECNOLOGY TRANSFER | EDUCATION | TRAINING | RESEARCH & DEVELOPMENT

SELECTED SPECIFIC ACTIVITIES

Local and regional planning and development
Strategic farm planning and development
Farming plans
Investment analysis and project evaluation
Evaluation of agricultural policies e programs

Environmental Assessments and Planning
Water/wastewater treatment-valorization-reuse

Terms of References definition
Proposals evaluation and procurement

.....

)

COMPETENCES IN AGRICULTURAL AND AGRO-INDUSTRIALS PROJECTS

Technical, Economic & Scientific services

Ecological potential evaluation (climate, soils, water, vegetation, ...)

Land suitability or land capability evaluation

Farming and cropping budgets & accounts

Farming plan system proposal

Investment analysis and evaluation

Environmental issues
